CSE 201 Sprint Plan Document

Team Member Names

Brian Fotheringham, Mike Zhao, Joey Gu, Nick Kane

Team Project Title

King 17

Project Description

Web based application to connect students of a specific college or university to other students and student groups. Users will create a personal or group account, add themselves to a college or university, and become a part of that college or university's network. Users can follow other users and student groups, like posts made by other users and student group, and post pictures or statements themselves. Users can also create groups for themselves and other users apart from public student groups.
